

DID YOU KNOW?

Property owners are responsible for the maintenance, repair or replacement of sewer lines connecting their homes to the public sewer line under the street.

Sewer lines connecting homes to public sewer lines are called "Sewer Laterals." These privately owned Sewer Laterals are especially vulnerable as Southern California faces historic drought conditions and tree roots seeking water extend, potentially damaging and clogging Sewer Laterals.

What should I do if my drains or toilets back up?

First, find out if you have a problem with your Sewer Lateral. Contact a licensed plumber with experience dealing with Sewer Laterals. You should also contact your sewer provider, East Orange County Water District at 714-538-5815 or admin@eocwd.com when any work will be done on your Sewer Lateral.
