

ADDENDUM NO. 3
TO REQUEST FOR PROPOSALS
FOR
ADVANCED METERING INFRASTRUCTURE (AMI) SYSTEM

The proposer is directed to make the following corrections, deletions, and/or additions to the contract documents heretofore dispensed to bidder for the above project; and to note bidder's receipt of this addendum by number on the addenda acknowledgment form, which shall be submitted with the Bid:

In the REQUEST FOR PROPOSALS:

1. DELETE Appendix 3 – Sample Agreement and Replace with revised Appendix 3 – Professional Services Agreement and General Provisions.

GENERAL CLARIFICATION:

1. Files/forms/statements to be submitted with Proposals include the following:
 - Proposal Complete with separate Cost Breakdown as described in the RFP
 - Proposed Subcontractors Listing
 - Manufacturing Information Form
 - Non-Collusion Affidavit
 - Certification Regarding Iran Contracting Form
 - Debarment and Suspension Certification
 - Byrd Anti-Lobbying Certification
 - Addenda Acknowledgement

2. Key Dates

Questions Due:

May 28th, 2025, 3:00 pm

QUESTIONS and ANSWERS:

1. See separate table of questions and answers.

As a summary; no bid bond will be required with the proposals. Any outreach activities for the project will be performed by EOCWD or its Public Relations firm. The District will offer a staging area at its reservoir property at 2323 Handy Creek Rd, Tustin, CA or limited space is available at the District's treatment plant across the street from the main office. Proposers will be responsible for providing their own restroom at the staging area. A forklift will be available. Proposers will be responsible for proper disposal of all materials (removed meters/lids, spoils, debris, packaging, hazardous waste, etc.). Assume 606 meter boxes will require substantial cleaning / dirt removal. Assume 300 meter boxes will need to be removed and reset in landscape areas. Assume 100 meter boxes will need to be completely replaced. Should any damage occur to service lines during meter replacement, EOCWD crews will be available to assist with the repair.
2. See separate table of Service Addresses.

#	Question	Response
1	The RFP does not specify a bond amount. Will there be a bid bond requirement? If so, what percent of bid bond is required. Is Performance Bond required?	No bid bond is required.
2	What is the anticipated duration of the project?	Proposals shall include timeline to execute the project, including procuring materials, installation, and ensuring all systems are complete and functional.
3	Will there be multiple phases to this project? What will they entail?	No.
4	Are there MBE/WBE requirements?	Please refer to the RFP Appendix A, Additional Contract Clauses, also found on the EOCWD AMI project website, for DBE requirements.
5	What meter or endpoint is being removed?	Various makes/models and sizes of meters are being replaced.
6	Is legacy meter material brass or plastic?	Existing meter bodies are all assumed brass.
7	Pre-install notification postcards?	EOCWD will work with the selected proposer's schedule to notify customers ahead of the meter change outs.
8	Post-install notification door hangers?	EOCWD will work with the selected proposer's schedule to notify customers after the meter change outs.
9	Will contractor be required to provide outreach material?	EOCWD will utilize its Public Relations firm to notify customers of the project.
10	Is the outreach material in color?	Will be determined by EOCWD PR firm.
11	Is the outreach material two-sided?	Will be determined by EOCWD PR firm.
12	What language(s) are required for outreach material?	Will be determined by EOCWD PR firm.
13	Will contractor be required to provide a call center?	No.
14	What are the hours of coverage?	None.
15	What languages are required?	None.
16	Will the Utility take responsibility for storage of all new materials?	EOCWD will work with the installation contractor to provide a secured staging area.
17	Will the Utility provide a project staging area?	Yes.
18	Is the staging area centrally located to all work order locations? Please provide the address of the proposed location.	Assume the staging area is at the reservoir site off of 2323 Handy Creek Road, Tustin. Access to Handy Creek Road is from Jamboree Road. An optional staging area is across the street from the District's Main office, but space is limited.
19	Will there be power office space and restrooms accessible?	Installation Contractor should provide their own restroom for field work and limited power will be available.
20	Will there be room for a fleet of ½-ton trucks at the provided staging area?	Depends on fleet size but there should be sufficient space available.
21	Will there be access to a forklift and/or pallet jack to move material?	Yes.

#	Question	Response
22	Bins for salvageable material (meters metal lids etc.)?	Installation Contractor to provide.
23	Bins for recyclable material (packaging cardboard plastic etc.)?	Installation Contractor to provide.
24	Bins for spoils (dirt trash debris etc.)?	Installation Contractor to provide.
25	Bins for hazardous waste (legacy endpoints/batteries)?	Installation Contractor to provide.
26	Will the Utility take responsibility for all disposal of all project waste?	Proposer/Installation Contractor to provide.
27	Salvageable material (meters metal lids etc.)?	Proposer/Installation Contractor to provide.
28	Recyclable material (packaging cardboard plastic etc.)?	Proposer/Installation Contractor to provide.
29	Spoils (dirt trash debris etc.)?	Proposer/Installation Contractor to provide.
30	Hazardous waste (legacy endpoints/batteries)?	Proposer/Installation Contractor to provide.
31	Are the services in contiguous complete routes?	Yes.
32	Will the Utility assist in locating difficult to locate meters?	Yes.
33	Will services requiring retrofit only predetermined?	No.
34	What percentage of services are Residential Irrigation Commercial and Industrial?	There are approximately 1,196 Residential, 12 Irrigation, 2 Commercial, and 1 institutional services.
35	Number or percentage of meters in the following locations?	Approximate services per location:
36	Indoors	0
37	Curb and gutter	0
38	Front yards	1011
39	Backyards	25
40	Behind locked gates	25
41	Alleyways	0
42	Driveways	75
43	Roadways	75
44	Rural Areas	0
45	Confined spaces: Please provide the location and quantities of the confined spaces	None.
46	Hazardous areas please describe the potentially hazardous conditions quantities and locations	None.
47	Will any portion of the project require traffic control? Please describe potential traffic control conditions and permit requirements.	It is not anticipated that traffic control will be needed.
48	How many services are in hardscapes (concrete asphalt etc.)?	Approximately 200 services.
49	What are the soil characteristics (clay rocky hard sandy etc.)?	Various.
50	It is expected that a small amount of dirt/debris will be removed with typical meter replacement is it anticipated that meter boxes will require substantially cleaning (dirt higher than bottom of register)? What percentage?	Assume 50% of the meter boxes will require substantial cleaning.

#	Question	Response
51	What is the typical depth (in inches) to the top of the meter register?	Depth varies between a few inches to at least 10 inches.
52	What type of shut off valve is used angle-stops or curb-stops?	Typically angle-stops.
53	Are existing meters on setter risers or straight pipe?	Typically straight-pipe.
54	Are there adapters if so do they need to be changed?	Unknown.
55	If lids are being replaced: List all sizes are lids that are currently in the system.	Various lid sizes covering meter boxes of all sizes.
56	Are specific lid sizes known for each service location?	No.
57	What is the material for the replacement lids?	To be determined by proposer.
58	Do lids have pre-drilled holes?	To be determined by proposer.
59	What is the size of the pre-drilled hole?	To be determined by proposer.
60	If holes will be drilled in existing lids: Amount of seed-stock provided Utility or Vendor?	To be determined by proposer.
61	What is the lid material for lids that will be drilled?	To be determined by proposer.
62	What size of hole is to be drilled in lid?	To be determined by proposer.
63	Is it anticipated that meter boxes will have to be removed and reset to access the meter connections?	For proposal purposes, assume 300 meter boxes will need to be removed and reset.
64	Is it anticipated that meter boxes will have to be replaced? If so:	Yes.
65	What is the percentage?	For proposal purposes, assume 100 meter boxes will need to be replaced.
66	What is the determining factor for a replacement?	If the meter can fit in the existing box.
67	Is the decision for replacement based on a pre-installation audit?	No.
68	Will the replacement boxes be the same size as the old boxes?	To be determined by proposer.
69	What sizes of meter boxes are in the system?	9.25" x 15.75", 10.5" x 17", 12" x 22", 17" x 28", 17" x 30", 24" x 36"
70	Small meters (5/8"-1")?	Previously provided.
71	Intermediate meters (1.5" – 2")?	Previously provided.
72	Large meters (3" and greater)?	Previously provided.
73	What is the quantity of each size?	Previously provided.
74	What is the material of the existing meter boxes?	Various but primarily concrete boxes.
75	Are the existing meter boxes straight-sided or tapered?	Various.
76	If a customer side water line breaks during installation due to deteriorating line or infrastructure (old galvanized pipe) who is responsible for repairs?	EOCWD will work with installation contractor to repair.

#	Question	Response
77	If a service side water line breaks during installation due to a deteriorating line or infrastructure who is responsible for service line repairs?	EOCWD will work with installation contractor to repair.
78	What will the process be if a service is too high and the new endpoint radio will not fit under the lid?	Proposer/Installation Contractor to determine.
79	Provide percentages of piping materials are found on the service side within the service system: Copper	1116 services
80	Galvanized	12 services
81	Poly	74 services
82	CTS	0
83	PVC	9 services
84	Provide percentages of piping materials are found on the customer side within the service system: Copper	1033 services
85	Galvanized	17 services
86	Poly	0
87	CTS	0
88	PVC	161 services
89	Who will be providing ancillary materials such as washers bolt kits gaskets connectors gel caps etc.?	Proposer/Installation Contractor to provide.
90	Was there a system audit performed during the development of the RFP (meter type meter size meter manufacturer quantity box condition	No.
91	What was the audit outline and will the results be shared?	n/a
92	What entity performed the system audit?	n/a
93	Service Line Material Identification: Can all service and customer lines be accessed within the meter box?	Yes.
94	If the lines cannot be accessed within the meter box does the Board anticipate the installation contractor to remove the meter box or dig outside of the box?	Yes.
95	If boxes need to be pulled a pricing line item should be added for pulling the box?	Each Proposer should include costs for assumed complete box replacement, see above.
96	What are the makes models and sizes of the boxes to be pulled?	Various.
97	What are the expectations for meter boxes in located hardscape?	Remain unless it is determined that they need to be replaced.
98	Will Utility staff shut down service line lateral in street?	If needed, EOCWD can assist with mainline shutdowns.
99	Are all service line laterals restrained?	Service laterals should have proper connections at both ends.

#	Question	Response
100	Will the District please commit to providing the final addendum at least five business days prior to the due date?	Yes. All Addenda will be issued at least 5 days prior to due date, or else due date will be extended.
101	Will EOCWD provide a cost proposal format for all vendors so that cost proposals can be compared in an apples-to-apples format?	No. Each proposer is able to provide a proposal in any format as long as they meet all requirements as stated in the RFP.
102	Would the city please provide the lay lengths and specifications for requested meters?	Reference answers to questions #55 - #75.
103	Please provide quantities, sizes, and specifications for meter box lids requested. Does the district have a preferred vendor?	See previous answers. The District does not have a preference on meter box lid vendors.
104	Please provide access to the grant requirements.	EPA's Community Grants Program requirements have been included in the Appendix A: Additional Clauses.
105	Are there Disadvantaged Business goals over and above the good faith efforts for this project?	The EPA's Community Grants Guidance document provides the following language: Make good faith efforts to solicit proposals or quotes from Disadvantaged Business Enterprises as required by 40 CFR Part 33.
106	Does the EOCWD have a designated storage area for this project? If so, what is the size of said facility? Will warehousing facilities be required as part of this project?	See question #18. It is not anticipated that warehouse facilities will be required as part of this project.
107	Will the District be managing end-customer communication, or will this be part of the vendor's responsibilities (i.e. letters, phone calls, appointments)?	District will manage communications with its Public Relations firm.
108	The district has requested pricing for lid drilling. Does the District have any Polymer lids in their system that will require drilling?	No.
109	Will EOCWD provide an estimated amount of vault and vault specifications involved in this project? Will there be installations in confined spaces?	No.
110	Will EOCWD provide the 'Bid Form' mentioned in the Bid Requirements and Conditions section 2?	Bid form reference has been removed.
111	Does EOCWD have an estimated amount/percentage of meters that are non-AMI compatible?	No.
112	Will any of the 3" and greater meters have a bypass?	No.
113	Will a vacuum trailer or truck be required for cleaning out the pit?	To be determined by proposer.
